

Chariot Licensing Procedure

Chariot v2 has been released!

See the following link for the latest documentation
<https://docs.chariot.io/display/CHAR2x>

If you haven't yet installed Chariot MQTT Servers see instructions here:
<https://docs.chariot.io/display/CLD/Chariot+MQTT+Server+Installation>

Once Chariot MQTT Sever is installed, in the Admin link in the top right hand drop down menu, select **Generate License Request** as shown below.

The screenshot shows the Chariot Admin web interface. The browser address bar indicates the URL is <https://192.168.1.150>. The page header features the Cirrus Link logo and a 'Settings' button. The main content area is titled 'Users' and displays a table with columns for Username, Roles, and ACLs. A single user, 'admin', is listed with the role 'Instance Admin' and ACLs 'RW #'. Below the table are search filters for Username, Roles, and ACLs, and a status bar indicating 'Showing 1 to 1 of 1 entries'. At the bottom of the table are buttons for 'Add', 'Edit', 'Reset Password', 'Delete', 'Import', and 'Export'. On the right side, a dropdown menu is open, showing options: 'Reset Trial', 'Change Password', 'Network Settings', 'Generate License Request', 'Upload License', 'Upload TLS Certificate', 'Reboot', 'Shutdown', 'Upgrade Server', and 'Logout'. The footer of the page includes 'Chariot MQTT Version 1.2.1', '© 2015, 2016, Cirrus Link Solutions.', and 'Trial Time Remaining: 00:00:00'.

Generate License Request

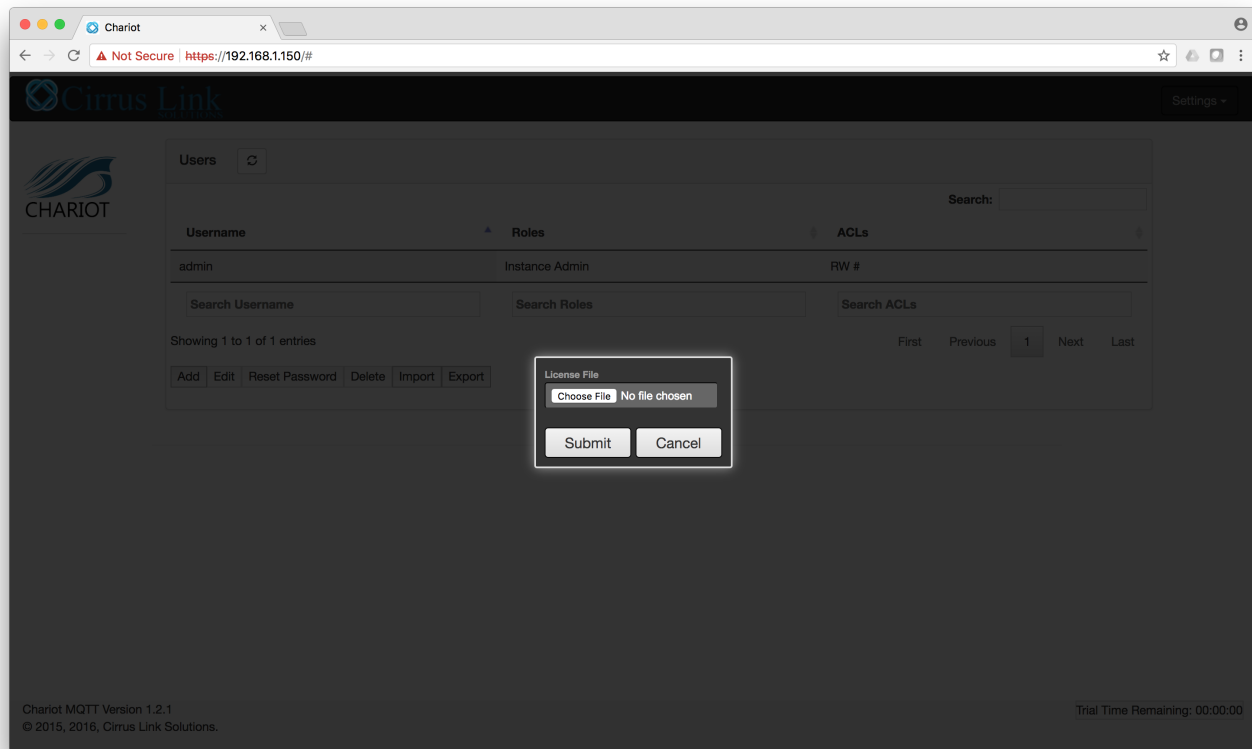

Used to create a license request to submit to Cirrus Link to receive a Chariot MQTT Server license. Once generated and downloaded, this is the file to submit to Cirrus Link to receive a license file.

NOTE: Once the Chariot MQTT Server is licensed, this option goes away.

Email license request file to support@cirrus-link.com with subject line **Chariot MQTT License Request** attaching the file. Please include contact details for recipient of license.

Cirrus link will email license file back to the requestor.

Select **Upload License** from the Admin drop down menu as shown below and browse to license file.

Upload License

This is used to upload a license file after Cirrus Link creates it from the license request file.

Once the Chariot MQTT Server is licensed, this option goes away.
